**Tax Consultants.**

## Let's start with the best bit: The result.

Let's be honest, who really wants to pay tax? At HÜBNER & HÜBNER we see it as our job to develop individual tax concepts which keep your affairs within the legal framework, while keeping your taxes at a tolerable level. This will give you the security of knowing that you are not paying any more tax than is absolutely necessary.

It is important to us that you experience our service as not only skillful and attentive, but understandable and long-term.

Our service is based on our 70 years of experience and our drive to achieve the best results possible. Our advisory style is personal and creative while maintaining a sense of proportion so that our clients, whether they are regional, national or international, whatever their targets and needs, get economically worthwhile results.

## Professional expertise with no gobbledygook: An absolute must in our team.

Of course we know what **has to be done**, but even better - we **enjoy doing it**. This means that in fact, the real support begins after all the receipts have been collected, forms filled in, tax reports and annual financial statements are complete. This is the point where **true consultancy** begins.

Every one says that? Maybe. The difference is that we see ourselves as **passionate craftsmen** and your **numbers** are our **raw materials**. It is **our job** to reveal the information contained in those numbers in an **understandable** way.

For us this makes our team of **80 people** simply **great tax accountants**.

What HÜBNER & HÜBNER mean when they talk about  
compulsory and optional.

Income and expenditure are the basis of corporate policy and the law dictates how this information **should be recorded**. Great, because that is an ideal basis for tax optimization. We support the **development** of your company with our know-how. In conjunction with well-known **international experts**, we provide guidance on financial planning, tax and labour law, report optimization and more.

We will **assist** you **personally**. By listening and deliberating, representing you in government agencies, helping with negotiations at the bank and with external audits, by creating hedging strategies, using **specialists** from many areas. All with a single goal: to keep you on a consistently **profitable course**.

We support you during your **entrepreneurial years** – and **afterwards**, of course.
